NATIONAL FOREIGN INTELLIGENCE BOARD

WASHINGTON, D.C. 20505

1 June 1983

MEMORANDUM FOR: Executive Secretary, National Security Council

FROM: Walter Elder
Executive Secretary

SUBJECT: Intelligence Directives

1. First, welcome to the ancient and honorable guild of executive secretaries. I seem to have spent the better part of my long career in this capacity and am available to share my experiences, on request.

2. Second, attached you will please find a package of NSC Intelligence Directives and DCI Directives. These are in response to your request to Tom Cormack.

3. As custodian and general factotum on Intelligence Directives, may I point out that the DCI Directives are being reviewed to bring them up to snuff since the promulgation of Executive Order 12333. The DCI Directives, which are in effect now, are divided into those which have been reviewed and revised and those which are still under review. There is a method in this madness. It is to base the DCI Directives on Executive Order 12333, treating the Executive Order as the basic NSC Intelligence Directive.

4. George Jameson and I will, before too long, seek your advice on how to handle the review of NSC Intelligence Directives.

5. In the meantime, if you have questions about the Intelligence Directives in general or specifically
